DNR COST SHARE

Forester Visit Checklist

Have these ready before your DNR service forester walks your land. The visit goes faster, and your application is easier afterward.

About the land

- [ ] **Parcel number(s)** from your property tax statement or the county assessor
- [ ] **Owner names** exactly as they appear on the title
- [ ] **A property map** or aerial printout with the boundaries marked
- [ ] **Rough forested acres**, even a best guess
- [ ] **House, outbuildings, wells and driveway** marked on the map
- [ ] **Access notes:** gates, roads, and where a truck and chipper can get in

About past work

- [ ] **Anything already thinned, pruned or burned**, and roughly when
- [ ] **Work you're planning**. Don't start it yet: DNR can't pay for work begun before written approval

About your goals

- [ ] **What worries you most:** fire near the house, beetles, an overgrown stand
- [ ] **What you want to keep:** favorite trees, views, wildlife cover, firewood
- [ ] **A few photos** of the areas that concern you
- [ ] **Neighbors who might join in**. Group projects can lower the cost for everyone

For the application

- [ ] **Your SSN or EIN** for DNR's payment paperwork (bring it, but don't write it on this sheet)
- [ ] **Washington State payee registration**, or a note to ask how to set it up
- [ ] **DNR's certification form** if you might qualify for hardship assistance (limited income, physical ability, veteran, or socially disadvantaged)
- [ ] **Your questions.** Our *Questions to Ask Your Forester* sheet is a good start

B&B Wildland Fire
DNR-approved fire mitigation contractor · Licensed, bonded and insured
DNR decides eligibility, the amount and the timing.
